

Joseph C. Slater, Ph.D., P.E.

Dean, College of Engineering • Tennessee Technological University
joseph.c.slater@gmail.com • 937-623-3380

EDUCATION

<i>Institution</i>	<i>Concentration</i>	<i>Degree/Date</i>
State University of New York at Buffalo	Mechanical Engineering	Ph.D., 1993
State University of New York at Buffalo	Mechanical Engineering	M.S., 1992
State University of New York at Buffalo	Aerospace Engineering	B.S., 1989

PROFESSIONAL CREDENTIALS

Professional Engineer State Board of Registration for Professional Engineers and Surveyors, Ohio. Registration Number 66936, 2002.

PROFESSIONAL EXPERIENCE (ABBREVIATED)

<u>Position</u>	<u>Institution</u>	<u>Dates</u>
Dean- College of Engineering	Tennessee Technological University	7/19–present
Chair- Department of Mechanical and Materials Engineering	Wright State University	6/16–6/19
Director- Aerospace Professional Development Center	Wright State University	10/12–12/14
Interim Associate Vice President for Career and Workforce Development	Wright State University	1/14 – 3/15
Director, Master of Science Engineering, Aerospace Systems Engineering	Wright State University	10/12–6/19
Associate Dean for Defense Aerospace Studies (interim 8/11–11/11)	Wright State University	8/11–12/13

<u>Position</u>	<u>Institution</u>	<u>Dates</u>
Professor	Wright State University	9/08–6/19
Associate Professor	Wright State University	9/99–8/08
Assistant Professor	Wright State University	9/93–8/99
Postdoctoral Research Assistant	State University of New York at Buffalo	6/93–8/93
Research Assistant	State University of New York at Buffalo	6/89–5/93

PROFESSIONAL MEMBERSHIPS

- American Society of Mechanical Engineers, Fellow
- American Institute of Aeronautics and Astronautics, Associate Fellow
- American Society for Engineering Education, Member
- Tau Beta Pi

HONORS, AWARDS & RECOGNITIONS

<u>Organization</u>	<u>Award</u>	<u>Dates</u>
ASME	Fellow	2015
AIAA, Structural Dynamics, Mechanics, and Materials Organizing Committee	Outstanding service in organizing the SDM conference	2013
AIAA, Structural Dynamics, Mechanics, and Materials Organizing Committee	Outstanding service in organizing the SDM conference	2011
Dayton Affiliate Societies Council	Outstanding Engineers & Scientists Award, Education	2011
AIAA, Structural Dynamics, Mechanics, and Materials Organizing Committee	Outstanding service in assisting the SDM organizing committee in implementing ScholarOne for the first time	2010

<u>Organization</u>	<u>Award</u>	<u>Dates</u>
Wright Lab/AFRL	Summer Faculty Fellowship	1994, 1995, 1999, 2000, 2009, 2010
Wright State University, College of Engineering & Computer Science	Faculty Service Award	2006, 2010
Wright State University, College of Engineering & Computer Science	Outstanding Teaching Award Finalist	1999, 2004, 2007, 2008
DARPA	Certificate of Award for outstanding contributions to the ISAT program	8/2007
Wright State University, College of Engineering & Computer Science	Nominee for Wright State University Distinguished Professor of Service	2005
AIAA	Associate Fellow	2001
Phillips Lab	Summer Faculty Fellowship	1996
SUNY Buffalo	Presidential Fellowship	1989–1993
NASA Langley	Graduate Fellowship	1989–1992

PROFESSIONAL EXPERIENCE

Tennessee Technological University

Dean (2019-present), Professor (2019-present)

Leads a college of approximately **3,300 students** and **90 faculty**, with an annual non-research operating budget of roughly **\$26M**, **\$2.5M** in research center funding, and approximately **\$14M/year** in additional external research expenditures—the latter having quadrupled over the past 5 years.

- Created 3 new scholarships:
 - *Aspiring Engineering, Computing, & Technology Scholarship* for students who transform into superstars after enrolling.
 - *Engineering, Computing, & Technology Assistance Grant* providing emergency support to students who face dramatic life challenges impacting their ability to attend.
 - *College of Engineering Nonresidential Merit-Based Scholarship* supporting out-of-state students who are high-achievers yet not eligible for some merit-scholarships that require Tennessee residency.

- Supported the raising (with a wide-variety of level of contribution from one donor to another) of over **\$8M** towards the Ashraf Islam Engineering Building (including the largest ever cash donation to the university) by creating a strong vision for the building and building strong relationships with donors. After the building was awarded, rebuilt its vision from a collection of unit-owned spaces into a college-wide hub—with labs shared across departments and governed by cross-disciplinary faculty committees—designed to drive student belonging, recruitment, and a sense of home on campus; carried lead design responsibility for the building through that transformation, working with a team of three faculty who developed the building’s programming from that vision.
- Created the overall vision for and led the funding proposal for the Advanced Construction and Manufacturing Engineering Building (ACME), with three program areas developed by other individuals, delegating lead design responsibility to trusted colleagues while retaining overall project oversight.
- Invigorated curricular innovation resulting in multiple new minors and concentrations, with three being across multiple colleges.
- Oversaw the accreditation renewal efforts for seven undergraduate programs in 2020/2021.
- Oversaw the first accreditation of the joint General Engineering BS program with East Tennessee State University (ETSU) in 2022.
- Oversaw creation of the Nuclear Engineering BS program.
- Managed a **3%** budget cut in 2020 without resorting to terminations while actually growing faculty in multiple departments.
- Oversaw the hiring of **113** individuals into faculty or staff positions in the college including:
 - **56 faculty and 57 staff**
 - Marketing and Communications director
 - Associate Dean for Academic Affairs
 - Associate Dean for Research
 - Chair of Chemical Engineering
 - Chair of Manufacturing Engineering Technology
 - Chair of Electrical and Computer Engineering
 - Supported hire of Director and Associate Director of General Engineering program
 - Director of MS in Engineering Management
 - Supported the recruitment of multiple highly successful senior faculty

- Actively engaged multiple employers through advisory board and other direct relationships
- Expanded the college's K-12 and community outreach portfolio, adding a VEX Robotics high school competition, an annual Manufacturing Day, and hosting the state Quiz Bowl championship.
- Centralized college laboratory technicians—previously siloed one-per-department with uneven, mismatched skills—into a shared pool that moves between labs based on skill and central coordination while each retains primary responsibility for one lab, improving time-to-completion, work quality, lab appearance, and lab safety.
- Introduced normed quantitative performance metrics for use in assessing college, department, and individual performance for use in synergy with qualitative assessments.
- Supported numerous efforts directly tied to the university's "Rural Reimagined" grand challenge and numerous efforts in support of the university's vision and mission.
- Through the Budget Advisory Committee and other efforts, helped create strategies and practices that will ensure efforts align with university strategic goals and needs.
- Oversaw the first substantial increases in external expenditures in over eight years through successfully encouraging faculty to reengage with funded research. Expenditures on competitive grants and contracts rose **290%** over 6 years (from **\$3.5M to \$13.8M**).
- Redesigned academic advising from an ad hoc mix of faculty and staff advising into a centralized model of dedicated staff advisors paired with faculty mentoring, supporting growth in incoming freshman enrollment by **30%** over 6 years, an increase in retention from approximately **70% to over 80%**, a marked reduction in erroneous advising, and higher faculty productivity in teaching and research.
- Restructured college diversity efforts away from a single, siloed DEI officer position toward shared, distributed ownership—giving minority student organizations (SWE, SHPE, NSBE, and oSTEM) direct access to the dean and embedding diversity responsibility across the advising staff—growing the share of students identifying as women from **14.5% to 16%**, as Black from **3.5% to 4.1%**, and as students of color overall from **11.2% to 15.4%**, each outpacing regional trends.
- Supported the college becoming a National Academy of Engineers Grand Challenge College.
- Created a co-director position within the college's Student Success Center focused on holistic student support, and established a donor-funded student emergency fund, with a companion college food pantry established on the initiative of the college's Student Success Center team and development officer—together providing a discreet, single point of contact for students in crisis and preventing numerous cases of housing loss, food insecurity, or withdrawal from the university.

- Enacted the first data dissemination college-wide including:
 1. Enrollment numbers and trends
 2. External expenditure numbers and trends
 3. Initiation of the *Competitive Edge* report highlighting CoE achievements in research, scholarship, and service.
 4. Improved college funding decision-making through direct dissemination of amounts of Special Academic Fee (SAF, effectively differential tuition) funding and justifications to executive committee to be shared with faculty.
 5. Decentralized graduate student funding by directly transferring funding to departments collocating responsibility and authority

Wright State University

Chair (2016–2019), Professor (2008–2019), Associate Professor (1999–2008), Assistant Professor (1993–1999) – Department of Mechanical and Materials Engineering

- Served as coauthor with shared design responsibility for the \$37M, 90,000-square-foot Neuroscience Engineering Collaboration Building (completed 2015)—a four-story facility pairing neuroscience and engineering wings around a central atrium to foster translational research between engineering faculty, the Wright State Research Institute, and the Air Force Research Laboratory.
- Director (and founder) of MS in Aerospace Systems Engineering (2013–2019)
- Directed \$1.5M in research programs in the areas of modeling, control, and system identification of mechanical, aerodynamic, thermal, and electrical systems. Resulted in almost 70 technical articles and one book chapter.
- Wrote proposal and led development (Functional PI) of Ohio Mean's Interns and Co-ops I program resulting in \$1.3M in state funding. Led team to obtain employer commitment letters for over \$3.1M for internships in under one week.
- Led development of proposal for Ohio Mean's Interns and Co-ops II program resulting in \$800G (after planned reallocation of OMIC I funds from external expenditure to internal investment) in state funding. Led team to obtain commitment letters for over \$2.5M for internships in under one week.
- Supervised 18 graduate student (16 MS, 2 PhD) to completion as major advisor. A substantial number of students have become leaders in their industry or faculty.
- As Interim Associate Vice President, became the de facto leader of an after-hours, monthly cross-campus group of department chairs (spanning disciplines including English, Mathematics, and History) formed to share experience and support one another's success.
- Dayton Area's Affiliate Societies Council (that includes AIAA, ASME and other professional societies) recognized my contributions through the Outstanding Engineering and Scientist Award for Education in 2011.

- Recognized for service twice by Wright State's College of Engineering and Computer Science.
- Developed and coordinated what became Wright State's second-largest K-12 STEM outreach event, drawing as many as 800 students per year from hundreds of miles away over 15 years, run on an annual budget of roughly \$2,000 with about 20 staff and 50 student volunteers, with a deliberate focus on impact per dollar; a version of the event has since been adopted at another institution. Served as a STEM Fellow at the Montgomery County Regional STEM Center developing K12 STEM lesson plans meeting Ohio Department of Education guidelines (2008–2010).
- Received a Certificate of Award for Outstanding Contributions to the ISAT Program for work on the DARPA Innovative Satellite Antenna Program performing non-publishable research and analysis.
- Served as advisor to SWE for ten years personally advising many of the members, developing leadership skills, and providing and assisting with outreach opportunities targeting bringing young women into STEM fields.
- Served for several years as an *Associate Editor for Shock and Vibration* and the *International Journal of Modeling and Simulation*.
- Awarded two medals for service beyond supporting the AIAA SDM conference through transition to a new software system, overcoming and debugging the conference system, and serving on the AIAA conference software advisory committee, and a third for later service.
- Created the for-credit internship program within the College of Engineering and Computer Science (CECS), addressing a long observed need for both academically formalized experiential learning and greater support for connecting our students to industry. Developed a fiscally sustainable model for the intern program (see prior bullet) and programmed (with N. Klingbeil) the office to ensure greater interaction between intern office and students.

SCHOLARSHIP

Printed Scholarship

Journal Papers

1. Gillaugh, D. L., Kaszynski, A. A., Brown, J. M., Beck, J. A., and Slater, J. C., "Strain Gage Ramifications on Mistuning in As-Manufactured Models and Experimental Testing," *Journal of Engineering for Gas Turbines and Power*, Vol. 142, No. 5, 2020

CONSULTING

1. Expert witness, Martin, McCarty, Wright & Roach, 2009.
2. Research Scientist, Paul C. Krause and Associates, 2005–2009.
3. Expert Witness, Wheelchair Tip Over Dynamics, Schuck Law Offices, 1999.
4. Deployment and Reorientation Modeling of the Innovative Space Antenna Technology program, SAIC, 2003.

SERVICE AND ACADEMIC OUTREACH

Associate Editor:

1. *Shock and Vibration* Journal, 2004–2011.
2. *International Journal of Modeling and Simulation*, 2004–2008.

Professional Society Committees

1. AIAA Structural Dynamics Technical Committee, 2004–present.
Major contributions:
 - (a) AIAA SciTech Aerospace Design & Structures Technical Chair, 2019.
 - (b) AIAA SciTech Aerospace Design & Structures Deputy Technical Chair, 2018.

- (c) Dynamic Specialists Conference Technical Discipline Chair (formerly called General Chair), 2016 SciTech
 - (d) Dynamic Specialists Conference Technical Chair (**split handling 187 abstracts**, reviews, and organized sessions), 2013 (SDM 54)
 - (e) Representative to SDM Program committee (**split handling 195 abstracts**, reviews, and organized sessions), 2011 (SDM 52)
 - (f) Hosted 2005 Fall Committee Meeting
 - (g) Chair: website committee, 2004–2010
 - (h) Member: Outreach committee– Converted award-winning outreach DVD for release Spring 2006 (1.0) and Spring 2007 (1.1) to web
 - (i) Chaired sessions (see below)
2. AIAA Dayton-Cincinnati Aerospace Sciences Symposium organizing committee, 2008, 2009, 2010.
 - (a) Publication chair, 2008.
 - (b) Publication co-chair, 2009, 2010.
 3. AIAA Conference Software Advisory Committee, 2011–2012.
 4. Member AIAA Gossamer Spacecraft Program Committee (2002–present)
Major contributions:
 - (a) Website editor
 - (b) Chaired sessions (see below)
 5. Montgomery County Regional STEM Center STEM Fellow.
Developed K12 STEM lesson plans tied to local research and industry needs and meeting Ohio Department of Education guidelines, 2008–2010.

Review Panels

- Proposal review
 1. NASA Large Aperture Research Program, panel **chair**, 2003.
 2. NSF Dynamic Systems & Controls, panel member, 2004.
 3. NASA New Millennium ST-9 Program, panel member, 2005.
- Program review
 1. Western Michigan University: STEP Advisory Board, 2012–present.

Reviewer:

1. Journals
 - (a) AIAA Journal

- (b) Shock and Vibration
- (c) AIAA Journal of Guidance, Control and Dynamics
- (d) ASME Journal of Vibration and Acoustics
- (e) International Journal of Modeling and Simulation
- (f) Journal of Engineering for Gas Turbines and Power
- (g) Journal of Intelligent Material Systems and Structures
- (h) Journal of Nonlinear Mechanics
- (i) AIAA Journal of Propulsion and Power
- (j) Journal of Vibration and Control
- (k) Mathematical and Computer Modeling
- (l) Mechanical Systems and Signal Processing
- (m) Nonlinear Dynamics

2. Books

- (a) Prentice Hall: Engineering Dynamics, 1st Edition, Tongue.
- (b) Prentice Hall: Engineering Mechanics: Statics, 1st Edition, Soutas-Little and Inman
- (c) Prentice Hall: Engineering Vibration, 2nd edition: Statics, Soutas-Little and Inman
- (d) Burkhauser: First Steps in $\text{\LaTeX}$, George Gratzer
- (e) McGraw Hill: Engineering Dynamics: Gray, Costanza and Plesha 1st draft
- (f) McGraw Hill: Engineering Statics: Gray, Costanza and Plesha 2nd draft
- (g) McGraw Hill: Engineering Dynamics: Gray, Costanza and Plesha 2nd draft

3. Conferences

- (a) International Gas Turbine Institute
- (b) AIAA SDM Conference, 40th, 41st, 42nd, 43rd, 45th, 46th, 47th, 48th, 50th
- (c) AIAA Gossamer Spacecraft Forum, 4th, 5th, 6th
- (d) AIAA Gossamer Spacecraft Forum Best Paper committee, 4th

Conference sessions chaired:

1. AIAA SDM-21 at 41st SDM Conference, 2000
2. AIAA SDM at 43rd SDM Conference, 2002
3. AIAA SDM at 44th SDM Conference, 2003
4. AIAA SDM at 45th SDM Conference, 2004
5. AIAA SDM-59 at 45th SDM Conference, 2004
6. AIAA GSF-6 at SDM Conference 4th Gossamer Spacecraft Forum, 2004
7. AIAA SDM-42 at 46th SDM Conference, 2005
8. AIAA SDM-59 at 46th SDM Conference, 2005
9. AIAA GSF-3 at 46th SDM Conference 6th Gossamer Spacecraft Forum, 2005
10. AIAA SDM-26 at 47th SDM Conference, 2006
11. AIAA GSF-8 at 47th SDM Conference 7th Gossamer Spacecraft Forum, 2006
12. AIAA SDM-9 at 48th SDM Conference, 2007
13. AIAA GSF-4 at 48th SDM Conference 8th Gossamer Spacecraft Forum, 2007
14. AIAA SDM-75 at 49th SDM Conference, 2008
15. AIAA SDM-34 at 50th SDM Conference, 2009
16. AIAA SDM-72 at 50th SDM Conference, 2009
17. MFPT 2009 Session 4A- Health Management for Maintenance and Decision Support, 2009

Committee service:*Department (Wright State University)*

1. Department Faculty Search Committees, 1994–1996, 1997–2002, 2007–2008, 2011–2013
2. Department Curriculum Committee, 1994–1996, 2003–2011 (chair 2006/2007–2011)
 - (a) Introduced program change to eliminate “soft” elective courses that were being misused by students
 - (b) Reviewed and approved Materials Minor program
 - (c) Participated in incorporation of design throughout the program as prescribed by ABET
 - (d) Oversaw largest overhaul of Mechanical and Materials Engineering programs in 14 years.
 - (e) Undergraduate semester transition committee, chair 2009–2019

- (f) Department internal advisory board, 2009–2010
- 3. Assistant to the Chair position search committee, chair, 2006 (2 times)
- 4. Student Recruitment position search committee, chair, 2006
- 5. Department Graduate Admissions Committee, 1997–2002
- 6. Honors and Awards Committee, 1997–1998

College (Wright State University)

- 1. College Library Committee, 1994–98 (Chair, 1996/97)
 - (a) Initiated the concept for a library copying service, adopted by the committee.
 - (b) Co-developed a web page for searching local resources focusing on the needs of CECS that streamlines the search process
- 2. College Curriculum Committee, 1996–1999, 2010 (Scribe 1996/7, Chair 1997–1999, 2010)
 - (a) Invited speakers from Math dept. to speak about courses they teach that are taken by our students (Calc. and DEs).
 - (b) Continued cooperation with Math dept. by initiating dept. by dept. evaluation of skills students need to acquire in Math courses.
 - (c) Oversaw two minors through the committee.
 - (d) Oversaw bulk of semester transition business
- 3. College PhD Program Coordinating Committee, 1996–2004
- 4. College PhD Program Student Affairs Committee, 2004–2019
 - (a) Assisted in the formulation of the Robotics and Controls Area program requirements.
- 5. College Teaching Committee, 1997–1999 (Scribe 1997/98)
- 6. College Steering Committee, 1999–2001, 2003–2009, Chair 2004–2005, 2005–2006, 2008–2009.
 - (a) Co-developed college bylaws with the committee
 - (b) Co-developed college awards procedures with the committee

University (Wright State University)

- 1. NTE faculty Bargaining Agreement Negotiation Committee (Administration)
- 2. University Undergraduate Curriculum and Policies Committee, 1996–1999, 2010–2011
- 3. University Legal Subcommittee of Campus-Wide Information System Advisory Committee, 1996–97

4. Graduate Council, 1996–1999
5. Faculty Senate, 1999–2001, *Engineering and Computer Science College Graduation Marshall, Fall 1999*
6. University Ad Hoc Committee for Undergraduate Academic Program Review, 2005–2006
7. University Ad Hoc General Education Semester Transition Committee, 2009

University (Tennessee Technological University)

1. Deans Council, standing member as Dean, 2019–present.
2. Budget Advisory Committee, standing member as Dean, 2019–present.
3. Academic Council, standing member as Dean, 2019–present.
4. Chaired the search committee for the university’s Director of Information Technology Services, 2022.

Advising

- Advisor of Society of Women Engineers, WSU student chapter, 2000–2009, 2010–2011.

Retention and Recruitment Activities

- Master of Ceremony for TEAMS bridge breaking competition (a competition for high school students as part of the Test of Engineering Aptitude and Mathematics), 1997, 1998.
- Designed the Wright State University Trebuchet competition, intended to be easier for students to test their designs at home or at school without expensive equipment; guidelines for the contest were made available on-line, 1999.
- Director, WSU Trebuchet Competition, 1999–2019. Integrated into the curriculum of over 20 school districts in Ohio.
- Taught the Computational Literacy portion of Wright State University’s College of Engineering and Computer Science Academic Advantage program, 1997, 1998, and re-designed the entire Computational Literacy portion of the course, 1998.

Open Source Software

1. **Engineering Vibration Toolbox**: A selection of 43 MATLAB and Octave codes for use in education of vibration phenomenon. Originally sponsored by the author of the corresponding text, it is now maintained pro-bono.
2. **Vibration Toolbox**: Educational module for illustrating vibration analysis and phenomenon. (Try on [mybinder](#))
3. **Mousai**: Harmonic Balance solvers and relevant tools to dynamic analysis to nonlinear dynamic systems.

4. [Array_to_LaTeX](#): Converts a NumPy/SciPy array or Pandas Numerical DataFrame to a $\LaTeX$ array or table using Python 3.x style (or alternatively) formatting of the result. (Try on [mybinder](#))
5. [VibrationTesting](#): A package for signal processing, modal analysis, and model reduction and model updating.
6. [Vitae](#): A Python module for building curriculum vitae and other documents from a Bib $\TeX$ file.
7. Other software (7 additional utilities not listed here).
